

集成指南 (PayPal Standard Card field + Standalone button)

1. PayPal Standard Card Field (inline guest checkout)

添加并引入 [PayPal JavaScript SDK](#) 代码到您的支付页面中来渲染和显示 PayPal Standard Card Field

. 您可以参考 [best practices on the Dev doc](#) 来获取对于黑色的“**Debit or Credit Card**”按钮的认知. 我们强烈建议, 在商户售卖实体商品的情况下, 向 to PayPal 传递 shipping address(运输地址, 或者是在售卖虚拟商品的情况下向 PayPal 传递一个 Digital Goods 的标识/no shipping 的标识.

```
var button = paypal.Buttons({
  fundingSource: fundingSource,
  createOrder: function (data, actions) {
    return actions.order.create({
      "intent": "CAPTURE",
      payer: {
        email_address: 'cmly5@163.com',
        name: {
          given_name: 'Laila',
          surname: 'Lu'
        },
        phone: {
          phone_number: {
            national_number: '12345678900'
          },
          phone_type: 'MOBILE'
        },
        address: {
          address_line_1: '123 Fake Street',
          address_line_2: 'Apt 2',
          admin_area_2: 'San Jose',
          admin_area_1: 'CA',
          postal_code: '95121',
          country_code: 'US'
        }
      }
    });
  }
});
```

2. Standalone button

默认情况下, 所有可能的支付选项按钮都会自动地在您页面中的同一个地方一起渲染出来. 如果您的用例允许, 您也可以为每种支持的付款方式渲染单独的独立付款按钮. 在本文讨论的情况下, 您需要使用 standalone payment button 的做法来在网页上渲染“**Debit or Credit Card**”按钮.

```
<script src="https://www.paypal.com/sdk/js?client-id=test&components=buttons,funding-eligibility"></script>
<script>
    // Loop over each funding source/payment method
    paypal.getFundingSources().forEach(function (fundingSource) {
        if(fundingSource === paypal.FUNDING.CARD){
            // Initialize the buttons
            var button = paypal.Buttons({
                fundingSource: fundingSource,
            })
            // Check if the button is eligible
            if (button.isEligible()) {
                // Render the standalone button for that funding source
                button.render('#paypal-button-container')
            }
        }
    })
}</script>
```

3. BN_CODE*

为了能把从与 sellers (个体商户)发生的交易与 partners(平台商户)相关联起来, partners 需要在他们的 HTTP 请求头中的 `PayPal-Partner-Attribution-Id` 里字段添加他们独特的 **BN Code(s)**.

请注意, 在不同的场景下, 您可以会拥有若干个 **BN Codes**.

重要! 如果在本文讨论的情况下, 您被分配了一个新的 **BN Code**, 那请务必使用这个新的 **BN Code** 来完成本文所讨论情况的所有交易

4. Best practice

- 1) 商户可以从他们的管理后台面板中来自选择是否要启用 BCDC standalone button 功能.
- 2 把 BCDC standalone button 放在一个合适的醒目位置.

Payment settings example

A Enable/disable Credit & Debit Cards

B Be able to switch the display order of payment methods
